## Vet Clinic

CAPTAIN WALLACE DEEN

The Army image in Asmara survived through the presence of one officer and four enlisted men of the Veterinary Clinic, with headquarters in Giessen, Germany.

The Vet Clinic inspected more than 100,000 pounds of local meat, milk, eggs, and vegetables each month for use aboard base. The vets also provided medical care for more than 1,000 privately owned pets during the final six months of the base's existence.
